## SKILLS

---

JavaScript, Express, React, SQL, HTML, CSS, Git, Node, Java, Ruby, Adobe Suite

## PROJECTS

---

**Flutter** (Express, ReactJS, JavaScript, SQL, Firebase) [github](#)

Twitter-like social media site

- Used SQL, and Express to create a database for users, and posts.
- Implemented user authentication using firebase, allowing users to create accounts and log in.
- Displayed a feed of top news from the day so far using Bing News API
- Developed a custom search feature that fetches hashtags, users, or both

**My Spotify** (Express, ReactJS, NodeJS, CSS)

Recreation of the spotify webpage.

- Utilized the spotify API to link the users own spotify account to the site.
- Read, and showed the users top artists, recent tracks, and all saved albums, playlists, artists, and tracks.
- Show the users currently playing song from the spotify client.

**Triphikers** (ReactJS, Express, NodeJS, CSS, SQL, Firebase) [github](#)

A portal that connects solo travelers together on trips

- Built the logic to request and handle join requests for each trip.
- Created a landing page to entice possible users to join our site.
- Added functionality to filter through trips by different ways (destination, accommodation, itinerary, and more).
- Handled all features relating to the user profile. (Friend requests, edit profile, user trips, and the design).
- Designed the architecture of the application.

**Tech Tonic** (ReactJS, NodeJS, Express, CSS)

Feed of Top Tech related posts from Twitter built for a hackathon

- At the users first visit they are greeted with a pre-populated set of tweets from pre-defined queries.
- Set up a filter and search bar for the user to completely customize the posts they see.
- Track previous searches by the user so they can remove the outdated ones

## EXPERIENCE

---

### Pursuit

*Fullstack Web Development Study Lead*

**Long Island City, NY**  
*November 2019 - Present*

- Lead bi-weekly review sessions for a group of 3-4 fellows.
- Develop lesson plans and pre-work based on the needs of the fellows.

### Duane Reade

*Stockperson*

**New York City, NY**  
*August 2019 - Present*

- Stock 20-30 overnight delivery crates on display for the customer.
- Strategically arrange 25 products inside of our storage room for quick access increasing productivity of the overnight crew up to an hour per shift.

## EDUCATION

---

### Pursuit

*Fullstack Web Development Fellow*

**Long Island City, NY**  
*September 2019 - Present*

Enrolled in an intensive yearlong Google-funded software engineering fellowship with a 9% acceptance rate.

### Rochester Institute of Technology

*Web Design and Development Major*

**Rochester, NY**  
*August 2017 - March 2018, January 2019 - May 2019*
