SKILLS

JavaScript, Express, React, SQL, HTML, CSS, Git, Node, Java, Ruby, Adobe Suite

PROJECTS

Flutter (Express, React, JavaScript, SQL, Firebase) github
Twitter-like social media site
- Used SQL, and Express to create a database for users, and posts.
- Implemented user authentication using firebase, allowing users to create accounts and log in.
- Created a feed of top news from the day so far using Bing News API
- Built a responsive design with CSS media queries

My Spotify (Express, ReactJS, NodeJS, CSS)
Recreation of the spotify webpage.
- Utilized the spotify API to link the users own spotify account to the site.
- Read, and showed the users top artists, recent tracks, and all saved albums, playlists, artists, and tracks.
- Displayed the users current playing song in the spotify client.

Calculator (ReactJS, CSS)
Simple calculator that allows the user to perform 5 basic mathematical functions.
- Built logic to perform the order of operations entered
- Simplified the development process by using React to break the app into components.
- Added functionality to run the app using just a keyboard.

Hangman (JavaScript)
Remaking of the Hangman game that allows the user to play against a computer or another player.
- At the start of the game, user can set up the following: number of players, names, choice of being the guesser or referee, difficulty level, and category
- Set up a function to randomly choose, and display 1 of 50+ words based on the category choice of the user.
- Tracked wins and losses of the players and displayed them after the round is finished with an option to play again.

EXPERIENCE

Pursuit   **Long Island City, NY**
Fullstack Web Development Study Lead   *November 2019 - Present*
- Lead bi-weekly review sessions for a group of 3-4 fellows.
- Develop lesson plans and pre-work based on the needs of the fellows.

Duane Reade   **New York City, NY**
Stockperson   *August 2019 - Present*
- Stock 20-30 overnight delivery crates on display for the customer.
- Strategically arrange 25 products inside of our storage room for quick access increasing productivity of the overnight crew up to an hour per shift.

EDUCATION

Pursuit   **Long Island City, NY**
Fullstack Web Development Fellow   *September 2019 - Present*
Enrolled in an intensive 10-month, Google-funded software engineering fellowship with a 9% acceptance rate.

Rochester Institute of Technology   **Rochester, NY**
Web Design and Development Major   *August 2017 - March 2018, January 2019 - May 2019*
